

Control File Generating Tool

Dillon Cowan and Jeff Rieker

USBR – Technical Services Center,
Denver

Control Files

- ✦ List of slots for data import/export
- ✦ Flat text format
- ✦ Specific formatting
 - Previously generated 'by hand'

TruckeeAtWadsworth.Gage Outflow: file=~/%o.%s units=cfs scale=1 import=resize

TCanalAtWadsworth.Gage Outflow: file=~/%o.%s units=cfs scale=1 import=resize

TruckeeAtNixon.Gage Outflow: file=~/%o.%s units=cfs scale=1 import=resize

TruckeeNrTruckee.Gage Outflow: file=~/%o.%s units=cfs scale=1 import=resize

FaradGage.Gage Outflow: file=~/%o.%s units=cfs scale=1 import=resize

Slotlist

- ✦ Command line option in RiverWare (--slotlist)
- ✦ Creates list of all slots in model
 - Information about slots
 - Comma separated
- ✦ Not long term solution, but presently available

0, SimObj,Independence,StorageReservoir,Inflow,SimObjMultiSlot,Flow,1,cfs,%f,2,AllOutput

0, SimObj,Independence,StorageReservoir,Outflow,AggSeriesSlot,Flow,1,cfs,%f,2,Multilnit

0, SimObj,Independence,StorageReservoir,Storage,AggSeriesSlot,Volume,1,acre-feet,%f,2,AllOutput

0, SimObj,Independence,StorageReservoir,Previous Storage,SeriesSlot,Volume,1,acre-feet,%f,2,AllOutput

Control File Generation from Slotlist

- ✦ Excel Interface
- ✦ Visual Basic for Applications (VBA) code
- ✦ Input Slotlist
- ✦ Output Control File
